## Career Technical Education Program

In our Career Tech courses our computer programming students are working through the adventure world of Ozaria while learning Javascript to code programs and create a mini video game. This is giving students hands-on experience with skill sets that will translate to many fields. The Informational Technology course is focused on improving our students typing speed and accuracy as well as incorporating project based learning using Google Sheets and Slides. These skills will support students across disciplines.

TGS is a School-wide Title 1 program, enabling us to receive Federal Funds to ensure that our students receive the support they need to reach and exceed grade level goals in reading and math. We welcome parent involvement in planning, review and improvement of Title 1 programs including the family engagement policy and the schoolwide program plan. Please contact Debbie Addison at [addison.2@thecharlesschool.org](mailto:addison.2@thecharlesschool.org) with any questions.
