

School Grade

Graham School, The

Districts and schools report information for the Ohio School Report Cards on specific marks of performance, called measures, within broad categories called components. They receive grades for up to ten measures and six components.

Achievement

The Achievement Component represents whether student performance on state tests met established thresholds and how well students performed on tests overall. A new indicator measures chronic absenteeism.

Performance Index

54.0%

Indicators Met

22.2%

Component Grade

Progress

The Progress component looks closely at the growth that all students are making based on their past performances.

Achievement

The Achievement Component represents whether student performance on state tests met established thresholds and how well students performed on tests overall. A new indicator measures chronic absenteeism.

Performance Index

The Performance Index measures the test results of every student, not just those who score proficient or higher. There are seven levels on the index and schools receive points for every student who takes a test. The higher the achievement level, the more points awarded in the schools's index. This rewards schools and districts for improving the performance of all students, regardless of achievement level.

Indicators Met

Indicators Met measures the percent of students who have passed state tests. It also includes the gifted indicator and the chronic absenteeism indicator. Test results are reported for each student in a grade and subject. The passage rate for each test indicator is 80% and the End of Course (EOC) Improvement Indicator is 25%.

F

Overall

This measures the progress for all students in math, ELA, and science using tests in grades 4-8 and some end-of-course exams.

NR

Gifted Students

This measures the progress for students identified as gifted in reading, math, science, and/or superior cognitive ability.

C

Students in the Lowest 20% in Achievement

This measures the progress for students identified as the lowest 20% statewide in reading, math, or science achievement.

F

Students with Disabilities

This measures the progress for students with disabilities.

Progress Details

These tables show the Progress scores by test grade and subject for students in grades 4-8 and some end-of-course tests, and includes up to three years of data as available.

High School						

What do the colors mean?

The Progress Component measures how groups of students made progress as compared to the statewide expectation of growth. The expectation of growth is based on how students in the group performed, on average, compared to other students like them across the state

Students made more progress than expected - significant evidence

Students made more progress than expected - moderate evidence

Students made progress similar to the statewide expectation - evidence

Students made less progress than expected - moderate evidence

Students made less progress than expected - significant evidence

Value Added data is not available

Grade

Gap Closing

The Gap Closing component shows how well schools are meeting the performance expectations for our most vulnerable populations of students in English language arts, math, and graduation. It also measures how schools are doing in helping English learners to become proficient in English.

Annual Measurable Objectives

Annual Measurable Objectives (AMOs) compare the performance of each student group to the expected performance goals for that group to determine if gaps exist. These charts show how well each group compares to the state average in ELA, math and graduation. A fourth AMO measures whether English Learners are making progress towards becoming proficient in English. The ultimate goal is for all groups to achieve at high levels.

F 37.0%

Grade Key

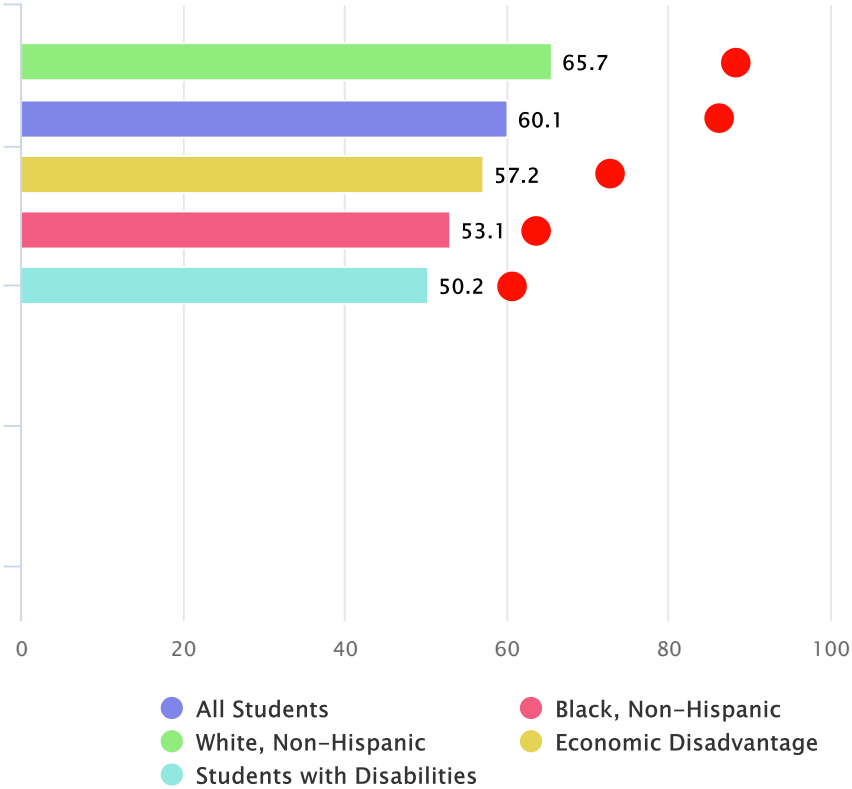

- | | |
|--------------------------|-------------------------|
| A = 90.0 - 100.0% | D = 60.0 - 69.9% |

The English Learner AMO is Not Rated because there are not enough students to evaluate.

Component
Grade

Graduation Rate

The Graduation Rate component looks at the percent of students who are successfully finishing high school with a diploma in four or five years.

4-Year Graduation Rate

The 4-year graduation rate applies to the Class of 2018 who graduated within four years, i.e. students who entered the 9th grade in the fall of 2014 and graduated by summer of 2018.

D 81.4%

Grade Key

A = 93.0 - 100.0%

D = 79.0 - 83.9%

B = 89.0 - 92.9%

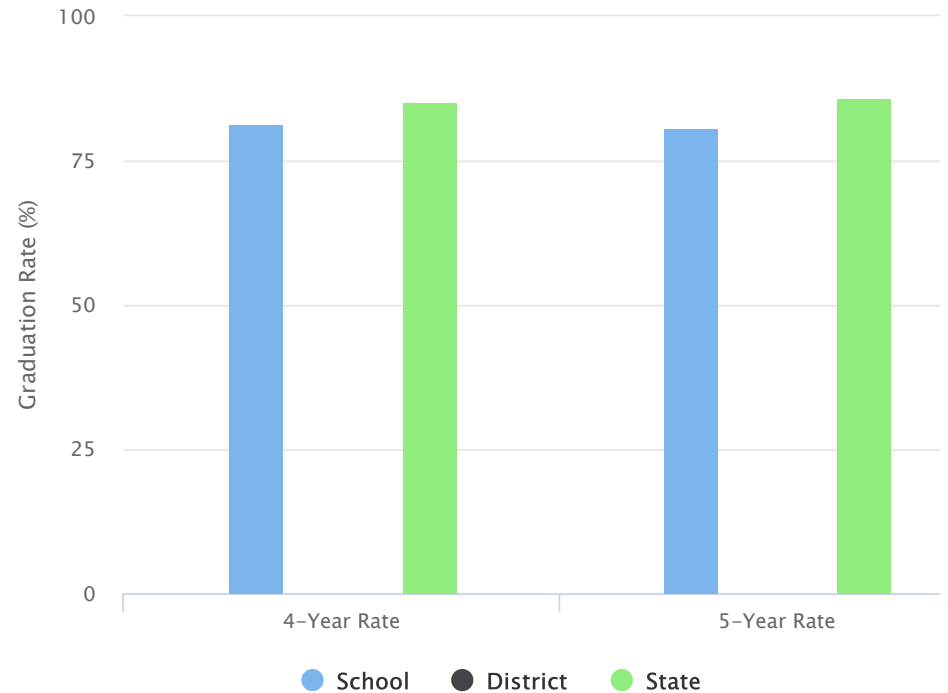

F = 0.0 - 78.9%

C = 84.0 - 88.9%

5-Year Graduation Rate

The 5-year graduation rate applies to the Class of 2017 who graduated within five years, i.e. students who entered the 9th grade in the fall of 2013 and graduated by the summer of 2018.

D 80.7%

Graduation Comparison

Grade Key

A = 95.0 - 100.0%

D = 80.0 - 84.9%

B = 90.0 - 94.9%

F = 0.0 - 79.9%

C = 85.0 - 89.9%

Note: The 5-year graduation rate does not appear in the final year of this graph because the necessary data is not yet available to calculate the 5-year rate for that school year.
