

# Ohio School Report Cards

## 2021 - 2022 Report Card for Graham School, The

The Ohio School Report Cards include performance information provided by schools and districts including academic, financial, and opportunity to learn data. Some of this data is then combined into six components that receive star ratings to indicate the level of performance for the school and district.

### Achievement

This component represents whether student performance on state tests met established thresholds and how well students performed on tests overall.

Needs support to meet state standards in academic achievement.

**Performance Index**

**52.4%**

### Graduation

The Graduation Component is a measure of the four-year adjusted cohort graduation rate and the five-year adjusted cohort graduation rate.

Needs support to meet state standards in graduation rates.

#### Graduation Rates

**83.9%** of students graduated in 4 years

**91.5%** of students graduated in 5 years

### Progress

This component looks closely at the growth all students are making based on their past performances.

Significant evidence that the school fell short of student growth expectations.

**Overall**

### Early Literacy

This component looks at how successful schools are at improving reading for at-risk students in grades K-3.

**Improving K-3 Literacy  
Third Grade Reading Proficiency  
Promotion to Fourth Grade**

NC  
NC  
NC

### Gap Closing

The Gap Closing Component is a measure of the reduction in educational gaps for student subgroups.

Needs support to meet state standards in closing educational gaps.

**Annual Performance Goals**

**13.0%**

### College, Career, Workforce and Military Readiness

This component looks at how well-prepared Ohio's students are for future opportunities, whether training in a technical field or preparing for work or college.

**Students who are Ready**

**16.1%**

# Ohio School Report Cards

Needs support to meet state standards in academic achievement.

## Achievement

The Achievement Component measures students academic achievement using each level of performance on Ohio's State Tests.

### Performance Index

The Performance Index measures the test results of every student, not just those who score proficient or higher. Schools and districts receive points on the index for every student who takes a test. The higher the performance level on the state tests, the more points awarded toward the index score. The index score is divided by the maximum possible score. Each year the maximum possible score is determined by the average of the highest 2% performance index scores in the state.

### Performance Indicators

The Performance Indicators measure reports the percent of students who have scored proficient or higher on state tests. This measure does not factor into the Achievement Component rating - the data is reported for informational purposes only.

High School	
Algebra I	7.1%
American US Government	44.4%
American US History	40.6%

Ohio School Report Cards

Due to the COVID-19 pandemic, testing data from the 2019-2020 school year was very limited and should not be used for comparison.

Significant evidence that the school fell short of student growth expectations.

# Progress

The Progress Component measures the academic performance of students compared to expected growth on Ohio's State Tests.

For more detailed data on Progress and Value-Added, click [here](#).

## Progress Details

These tables show the Progress scores by test grade and subject for students in grades 4-8 and some end-of-course tests, and includes up to three years of data as available.

Test Grade	Progress			
	English Language Arts	Mathematics	Science	All Tests
All Grades	Green	Red	Blue	Yellow
4th Grade	Grey	Grey	Grey	Grey
5th Grade	Grey	Grey	Grey	Grey
6th Grade	Grey	Grey	Grey	Grey
7th Grade	Grey	Grey	Grey	Grey
8th Grade	Grey	Grey	Grey	Grey

Test Grade	Progress							
	English II	Algebra	Geometry	Mathematics I	Mathematics II	Biology	American History	American Government
High School	Green	Red	Red	Grey	Grey	Blue	Green	Green

### What do the colors mean?

The Progress Component measures how groups of students made progress as compared to the statewide expectation of growth. The expectation of growth is based on how students in the group performed, on average, compared to other students like them across the state.

- Students made more progress than expected - significant evidence
- Students made more progress than expected - moderate evidence
- Students made progress similar to the statewide expectation - evidence
- Students made less progress than expected - moderate evidence
- Students made less progress than expected - significant evidence
- Value Added data is not available

# Graham School, The (133421)

What are the trends in growth and achievement?

This report enables you to select data of interest, assess trends over time, and compare results. Use the filters on the left to explore growth and achievement data. Depending on the assessment, achievement is reported in Normal Curve Equivalents (NCEs) or scale scores and does not reflect proficiency level.

OST Tested reports include all students tested at the School. OST Accountable reports include only those students accountable to that School. Please note that the data on this report is for the 2020-21 school year.

Subject	Year	Grade	Effectiveness Level	Growth Index	Growth Measure	Standard Error	Achievement <i>Enter</i> → <i>Exit</i>	Entering Achievement Percentile	Student Count
OST EOC Algebra I - Accountable	2021	N/A	Light Green	-0.34	-1.0	2.8	682.3 → 681.3	29	29
OST EOC English Language Arts II - Accountable	2021	N/A	Dark Green	1.09	2.3	2.1	689.7 → 692.5	28	41
OST EOC Geometry - Accountable	2021	N/A	Yellow	-1.19	-3.1	2.6	663.2 → 659.5	22	41

### Legend and Glossary

#### Effectiveness Levels

- ▲ **Dark Green** Moderate evidence that the school's students made more growth than expected.
- ▲ **Light Green** Evidence that the school's students made growth as expected.
- ▼ **Yellow** Moderate evidence that the school's students made less growth than expected.
- ▼ **Orange** Significant evidence that the school's students made less growth than expected.
- ▼ **Red** Very significant evidence that the school's students made less growth than expected.

#### Effectiveness Level

A category that describes the certainty that a group of students met, exceeded, or fell short of expected growth.

#### Growth Index

An indicator of the certainty that the group of students met, exceeded, or fell short of expected growth.

#### Growth Measure

A conservative estimate of the growth that students made, on average, in a grade and subject or course.

#### Standard Error

A measurement that establishes a confidence band around the growth measure and describes the certainty that the group of students met, exceeded, or fell short of expected growth.

#### Achievement

Depending on the assessment, achievement is reported in Normal Curve Equivalents (NCEs) or scale scores.

- Entering achievement is either the average of the students' NCEs from the most recent prior year available or the average of the students' expected scale scores.
- Exiting achievement is either the average of the students' current year NCEs or the average of the students' actual scale scores.

#### Entering Achievement Percentile

The entering achievement for the group of students relative to the overall distribution for this assessment.

#### Student Count

The number of students included in the analysis.

Ohio law establishes the scale used to assign grades or ratings, and the colors reflect this scale. After the 2019 calculations were completed, the state legislature changed the law to reduce the amount of evidence needed to assign a dark green, light green, or yellow color and increased the amount of evidence needed to assign an orange or red color. The 2019 information on this page has been updated to reflect the new law. Therefore, the colors seen today might not match what was posted when the reports were first released.

Mathematics	Ohio's State Tests End of Course (Algebra I)	▲		○	○	◆		
	Ohio's State Tests End of Course (Geometry)	■		○	◆	◆		

**School Value-Added**

- ▲ Moderate evidence that the school's students made more growth than expected.
- ▲ Evidence that the school's students made growth as expected.
- Moderate evidence that the school's students made less growth than expected.
- ▼ Significant evidence that the school's students made less growth than expected.
- ▼ Very significant evidence that the school's students made less growth than expected.
- No data currently available

**School Diagnostic**

- Moderate evidence that the group made more growth than expected.
- Evidence that the group made growth as expected.
- ◆ Moderate evidence that the group made less growth than expected.
- Not enough students to generate a growth measure.

# Ohio School Report Cards

Needs support to meet state standards in closing educational gaps.

## Gap Closing

The Gap Closing component shows how well schools are meeting the performance expectations for our students in English language arts, math, and graduation. It also measures how schools are doing in supporting English learners to increase language proficiency, reducing chronic absenteeism for all students, and identifying gifted students and providing gifted services.

### Annual Performance Goals

The annual performance goals are established in six areas, and the performance of specific student subgroups are measured against the annual or long-term goals for each area. Goals are established for English Language Arts academic achievement and growth, Math academic achievement and growth, graduation, English learner language proficiency, chronic absenteeism, and gifted performance. The state expectation for all areas and all student subgroups is to continue closing educational gaps year over year.

**13.0%**

**English Language Arts Achievement**

(/school/gap/133421#ela)

**Math Achievement**

(/school/gap/133421#ma)

**English Language Arts Growth**

(/school/gap/133421#elag)

**Math Growth**

(/school/gap/133421#mg)

**Graduation** (/school/gap/133421#g)

**English Learners**

(/school/gap/133421#el)

**Chronic Absence**

(/school/gap/133421#ca)

**Gifted** (/school/gap/133421#gft)

Each student subgroup has its own interim and long-term goals in English language arts, math and graduation. Subgroups with fewer than 15 students are not rated and do not appear on the graphs.

# Ohio School Report Cards

Needs support to meet state standards in graduation rates.

## Graduation

The Graduation Component is a measure of the four-year adjusted cohort graduation rate and the five-year adjusted cohort graduation rate.

### 4-Year Graduation Rate

The four-year graduation rate applies to students in the class of 2021 who graduated within four years. These are the students who entered ninth grade in the fall of 2017 and graduated by the summer of 2021.

**83.9%**

### 5-Year Graduation Rate

The five-year graduation rate applies to students in the class of 2020 who graduated within five years. These are the students who entered ninth grade in the fall of 2016 and graduated by the summer of 2021.

**91.5%**

Note: The 5-year graduation rate does not appear in the final year of this graph because the necessary data is not yet available to calculate the 5-year rate for that school year.

**12.2%**  
Of students in the four- and five-year graduation cohorts did not graduate in their fourth or fifth year of high school

Non-Graduate Data	
Regular education students still enrolled in high school	35.7%

Non-Graduate Data	
Students with disabilities still enrolled in high school	14.3%
Students with disabilities who met graduation requirements, but deferred their diploma	0%
Students no longer enrolled in high school	50%

## College, Career, Workforce, and Military Readiness

The College, Career, Workforce, and Military Readiness Component measures how well-prepared Ohio's students are for all future opportunities.

**Note:** *The information on this page is provided for informational purposes. This component will not be rated and will not factor into the overall rating until the 2024-2025 school year at the earliest.*

	Number of Students	Point Value	Points Earned
Number of students in the four-year graduation cohort who completed a pathway and are prepared for college or career success.	9	1	9.0

### Outcomes after High School Graduation

Districts and schools have long-term impacts on student outcomes. The College Career Workforce Military Readiness component provides information on how schools prepare students for different pathways of college and career success. It also provides insights on how those students do once they leave high school. What happens beyond the diploma is an important indicator of how well schools are preparing students.

The University System of Ohio provides **district reports** (<https://www.ohiohighered.org/data-reports/college-readiness>) on enrollment and remediation of high school graduates attending in-state, public colleges and universities.

**What Percentage of the 2019 Graduating Class Entered College within Two Years?** **NC**

**What Percentage of the 2015  
Graduating Class Graduated from  
College within Six Years of  
Leaving High School?**

**NC**

**How Prepared was Your 2021 Graduating Class?**
